

PRIVATE TOKEN SALE AGREEMENT (**WEX** TOKEN)

This Private Token Sale Agreement ("Agreement") is entered into as of the date set forth below between:

Issuer: Wnode Ltd (Wenode), registered in England No: 16363136

Registered Address: Unit A, 82 James Carter Road, Mildenhall Industrial Estate, Suffolk, United Kingdom, IP28 7DE

Governing Law: England & Wales

Purchaser: (name, address, email to be completed at signing)

1. Background

Wenode has developed an operational MVP demonstrating orchestration, node execution, routing, and telemetry. This Agreement documents the Purchaser's acquisition of **WEX** tokens in a private sale to fund equipment procurement, operations and initial deployments. Funds raised under this Agreement will be used to scale, harden, deploy the existing system and operations.

2. Token Details

- Token Name: WENODE
- Symbol: **WEX**
- Chain: Polygon
- Decimals: 18
- Total Supply: 10,000,000 WEX (fixed; no further minting)
- Canonical Contract Address (Polygon): 0xa382506695f825fe807C3f4D47aEB986046bdc57
- Minting Status: Fully minted and held by the Issuer in the canonical treasury address.
- Transferability: **WEX** becomes transferable when the Issuer enables transfers on the canonical contract. Enabling transfers is a single on-chain action controlled by the Issuer.

3. Purchase Terms

- Purchase Amount (USD): [insert amount]
- Private Sale Price: USD \$0.116 per **WEX** (unless otherwise agreed in writing)
- Total **WEX** Allocated to Purchaser: Calculated as $\frac{\text{Purchase Amount (USD)}}{0.116}$ **WEX** (rounded per the Issuer's allocation rules).
- Raise Target (this round): USD \$80,000 (equipment, deployment and operations use only).
- Payment Method: Payments accepted in USDC on Polygon or direct bank transfer
- . Purchaser will provide a wallet address for delivery at signing.
- KYC/AML: Purchases equal to or above USD \$15,000 are subject to KYC/AML verification prior to token delivery.

4. Vesting and Delivery

- Vesting schedule (private investor): 10% of the Purchaser's allocation is released at Token Generation Event (TGE). The remaining 90% is released linearly over 3 months following a 1-month administrative period; releases occur daily pro rata and are visible on-chain.

- Founder allocation: The Founder allocation (1,000,000 WEX) is available at TGE for equipment and operations; transfers above 25,000 WEX are subject to a 48-hour timelock (see Section 7).
- Delivery mechanics: Token deliveries to Purchaser wallet addresses will be executed on-chain from the canonical treasury address and recorded with tx hashes in the dataroom. The Issuer will not deliver tokens to wallets that fail KYC/AML checks where applicable.

5. Nature of Tokens and Risk Acknowledgement

- Utility token: **WEX** is a utility token intended for use within the Wnode network (access to features, operator incentives, optional utility layer). **WEX** does not represent equity, ownership, dividends, profit rights, or securities.
- No guarantee of value: Purchaser acknowledges token value may fluctuate and that **WEX** is not a guaranteed investment return. Purchaser is not relying on financial returns from the Issuer.
- Transferability: Once transfers are enabled by the Issuer, **WEX** is freely transferable on supported wallets, DEXs, or marketplaces.

6. Use of Funds

Funds raised under this Agreement will be used for the following purposes:

- Primary: equipment procurement, shipping, installation, and direct deployment costs required to validate and scale initial compute nodes.
- Operational support: reasonable operational expenses necessary to execute the deployment and growth plan, including founder travel to meet and onboard potential founder partners, vendor coordination, and field validation.
- AI usage and technical validation: cloud or on-prem AI compute credits, model testing, and other AI usage costs required to validate product features and demonstrate enterprise readiness.
- Administrative and compliance costs: legal, accounting, KYC/AML processing, and minimal administrative expenses directly related to the raise and deployment activities.

Transparency and limits. The Issuer will publish procurement receipts, vendor invoices, travel receipts where material, and deployment verification evidence in the dataroom within 30 days of each major expenditure. The Issuer will maintain clear ledgers separating capital equipment spend from operational expenditures and will provide periodic reconciliations in the dataroom. If a Purchaser requires stricter allocation limits, such terms must be agreed in writing and appended to this Agreement.

7. Security, Treasury Controls, and Transparency

- **Timelock for large transfers (manual):** For any planned transfer **exceeding USD \$8,000** the Founder will create a public scheduled transfer entry in the dataroom and wait **48 hours** before broadcasting the transaction. The scheduled entry will state **amount, recipient address, purpose, and earliest execution timestamp**. After broadcasting, the Founder will immediately paste the on-chain **tx hash** into the same entry.
- **Public transparency:** The Issuer will keep the dataroom updated with the **canonical contract address**, any timelock or multisig contract addresses (when deployed), third-party audit reports,

and a record of every treasury transfer (tx hash, amount, recipient, and purpose) within 72 hours of execution.

- **Future multisig migration:** When additional founders or signers join, the Issuer will migrate treasury control to a **2-of-3 multisig**. Within 30 days of the 3rd founder joining. The migration plan, target multisig addresses, and a migration timeline will be published in the dataroom before any funds are moved.

8. Representations and Warranties

By the Purchaser:

- Purchaser represents and warrants that it has the legal capacity and authority to enter this Agreement and to perform its obligations.
- Purchaser acknowledges receipt of all information necessary to make an informed decision and that it is not relying on any representations other than those expressly set out in this Agreement.
- Purchaser confirms compliance with applicable laws and will provide KYC/AML information if requested.

By the Issuer:

- Issuer represents that it has the authority to enter this Agreement and to deliver WEX tokens as described.
- Issuer represents that the canonical contract address listed in Section 2 is the only official **WEX** contract and that no additional **WEX** will be minted beyond the fixed supply.

9. Refunds and Termination

All purchases are final and non-refundable except in cases of material fraud or misrepresentation by the Issuer. The Issuer may terminate this Agreement for cause if the Purchaser materially breaches its obligations and fails to cure within a reasonable period.

10. Compliance and Sanctions

Purchaser agrees to comply with any reasonable KYC/AML requirements and to not use funds or tokens in violation of applicable sanctions, anti-money laundering, or counter-terrorism financing laws. The Issuer reserves the right to refuse or reverse token delivery if required by law.

11. Confidentiality

The parties will keep confidential the terms of this Agreement and any non-public information exchanged, except as required by law or as necessary to perform obligations under this Agreement (including publication of token delivery tx hashes and procurement receipts in the dataroom as described herein).

12. Governing Law and Dispute Resolution

This Agreement is governed by the laws of England & Wales. Any dispute arising under or in connection with this Agreement will be resolved in the courts of England & Wales.

13. Entire Agreement

This Agreement constitutes the entire agreement between the parties with respect to the subject matter and supersedes all prior agreements and understandings.

15. Annex A — Summary of Key Commercial Terms (copy for quick reference)

- Raise target: USD \$80,000 (equipment and deployment)
 - Private price: USD \$0.116 per **WEX**
 - Total supply: 10,000,000 WEX (fixed)
 - Canonical contract: 0xa382506695f825fe807C3f4D47aEB986046bdc57 (Polygon)
 - Vesting (private investor): 10% at TGE; 90% linear over 3 months after 1-month administrative period; daily pro rata releases.
 - KYC threshold: Purchases $\geq$ USD \$15,000 subject to KYC/AML.
 - Timelock: Transfers > 25,000 **WEX** subject to 48-hour timelock.
 - Liquidity lock: Liquidity provided to DEXs will be locked for a minimum of 12 months (unless otherwise agreed).
-
